

FUEL PRESSURE GAUGES

Earl's Australia now offers BOTH 0-15 psi and 0-100 psi fuel pressure gauges. There are two versions of each, Dry and Oil Filled.

Part Numbers are:

0-15 psi Dry 512-15

0-15 psi Oil Filled 512-16

0-100 psi Dry 512-20

0-100 psi Oil Filled 512-21

All the gauges have a 40 mm case, the dry gauge is surrounded with a protective rubber outer casing.

The fitting on the rear of the gauge is 1/8 NPT male, which readily accepts Earl's straight gauge adaptors 968703 (-3) and 968704 (-4) or 90 degree 968603 (-3) and 968604 (-4) to enable Braided stainless hose to be attached.
